

Have you experienced the death of  
your spouse?  
Do you wish you had more support?

**An online support  
group may be the  
answer.**

Dr. Mary-Frances O'Connor, clinical psychologist and UA researcher, is studying the effects of participating in an online support group from your own home.

Participants must 60 years of age or older.

Groups are 1 hour twice a week for 8 weeks.
